

Emergency Response and Restoration Services

Alamo 1 Emergency Response and Restoration Services is a direct provider of mitigation and restoration services for a wide range of city, government, schools, residential, and private sector clients. We deliver full service, turn-key, and best-value results with a focus on safety, compliance and best practices.

We recognize that each project is unique. Whether a large institution, commercial company, or high-end residential customer, our restoration and reconstruction capabilities are customized to meet each project's specific needs using experience, technology, and innovation. Our certified professionals are on call 24/7 and guarantee rapid mobilization to prevent additional damage. We have the resources to offer immediate relief through the necessary manpower, materials, and equipment. Our priority is to ensure your safety, minimize interruptions, and contain damage—no matter the size or scale.
